EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Konrad on April 14, 2004.

The application has been amended as follows:

Claim 47, line 1, change "46" to "41".

The following is an examiner's statement of reasons for allowance:

Claims 41-45 and 47-59 are allowable over the prior art of record because the prior art of record does not teach the apparatus as claimed including a capacitor; and a sputterable coil insulatively carried by the shield wall and having a first end coupled to the signal source and a second end coupled to the capacitor, wherein the coil substantially encircles the plasma generation area and is positioned to couple energy inductively into the plasma generation area and positioned adjacent to the substrate support member to sputter material from the coil onto the substrate; further including a first power supply coupled to the first target and wherein the source includes a second power supply coupled to the coil.

Claims 60-73 are allowable over the prior art of record because the prior art of record does not teach a method of depositing material on a workpiece in a sputter deposition chamber, comprising sputtering target material onto said workpiece from a

coil having a first end coupled to a signal source and a second end coupled to ground, said coil being insulatively carried by a shield wall substantially encircling a plasma generation area and positioned adjacent to and at least partially encircling said workpiece; and inductively coupling energy from said coil into said plasma generation area.

Parent Applications 08/851,946, 08/680,335, 08/644,096 and 08/647,184 have been reviewed and references therein have been checked.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M- Th with Every other Friday off.
